warehouse
management slow
and error prone

Solution
Seasoftware ERP
Software &
Warehouse
Management
System

Results
24/7 real-time
inventory visibility

Increased capacity,
improved fill rates,
fewer errors

Greener business
with paperless
solution

Company

Fortune Fish & Gourmet is the premier fresh and frozen seafood processor and specialty food distributor servicing fine restaurants and grocers from facilities throughout the country. Founded in 2001, Fortune has grown to become one of the largest seafood and specialty food distributors in the country, processing more than 75,000 pounds of fish, shellfish, oysters, clams, and other seafood every day.

“Going paperless and scanning product information into Seasoft has increased our capacity, improved order fill rates and significantly improved the service aspect of our business.”

Dominick Gattuso, CFO, Fortune Fish & Gourmet

Challenge:

Fortune Fish wanted to improve inventory control and reduce errors in their freezer and warehouse operations. They chose Seasoft based on the following capabilities:

Wireless Warehouse Management

Bar coding reduces errors and lets Fortune Fish track inventory in multiple locations

Instant Sales Order Visibility

Production teams have instant visibility of new orders to increase overall production

Improved Steak Fish Traceability

Fortune Fish can track tuna and steak fish back to the provider and final customer

Solution:

Seasoft Enterprise Resource Planning (ERP) software's built-in warehouse management system tracks inventory from the time raw materials arrive to the shipping of finished goods. Seasoft uses wireless, hand-held bar code scanners and mobile PCs to improve inventory visibility and control. With Seasoft, Fortune Fish always knows what's on-hand and where it's located.

Results:

- Complete inventory visibility and control across multiple facilities
- Streamlined order entry with real-time visibility to inventory & production staff
- Forward and backward traceability and fast response to food safety issues

“CAI knew exactly how we could improve our inventory control and they took the time to make sure all our business requirements were addressed.”

Dominick Gattuso, CFO, Fortune Fish & Gourmet
